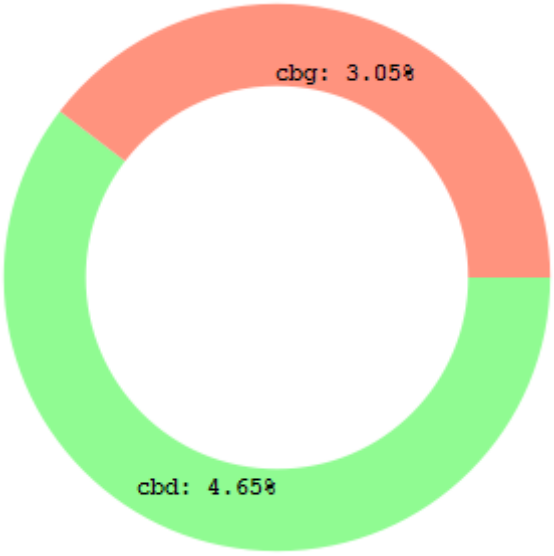
# CANNABINOIDS LABORATORY REPORT

| | | | |
|---|---|---|---|
| Customer Name: | Kaycha Oklahoma | Product Name: | S5 |
| Customer License: | KaychaOklahoma | Product Type: | Concentrate |
| Batch Number: | | Sample ID: | 323941 |
| METRC Tag: | | Date Received: | 02/21/2020 |
| Instrument Name: | HPLC 1100-2 | Test Date: | 02/26/2020 |
| | | Report Date: | 02/27/2020 |

| ACIDIC COMPOUND | | NEUTRAL COMPOUND | | TOTAL POTENTIAL CANNABINOIDS[1] | |
|---|---|---|---|---|---|
| **CBDVA** | ND* | **CBDV** | ND* | **CBDV** | NR* |
| **THCVA** | ND* | **THCV** | ND* | **THCV** | NR* |
| **CBDA** | ND* | **CBD** | 4.65% | **CBD** | 4.65% |
| **THCA** | ND* | **THC** | ND* | **THC** | NR* |
| **CBCA** | ND* | **CBC** | ND* | **CBC** | NR* |
| **CBGA** | ND* | **CBG** | 3.05% | **CBG** | 3.05% |
| **CBNA** | ND* | **CBN** | ND* | **CBN** | NR* |



## Notes:

* None Reported (NR) because the compound exists at or below the limit of quantitation but above the limit of detection.

* None Detected (ND) because the compound exists at or below the limit of detection.

* Potency (SOP 020)

* Sample Condition deemed acceptable upon receipt by PhytaTech. Sampling done by outside party.

* Units of % are (mass/mass) and reflect numbers as a fraction of 100.

[1] The sum of acidic and neutral values does not equal total potential content of a compound.
*To account for incomplete conversion of acidic to neutral compounds, the acidic value is reduced by a standard formula i.e., (THC-acid x 0.88) + delta9-THC = Total Potential THC*
