

C900

Cartridge Filling and Capping Machine

Features:

- Capable of filling and capping up to 900 cartridges per hour.
- Fully heated dispensing system.
- Can be used for almost all screw-on flat tip cartridges.
- Extremely low product waste.
- Simple and easy user interface.
- Fills high viscosity oils with ease.
- Fully adjustable tightening torque.
- Built in work table.

Specifications:

- 1L Liquid Vessel
- 0.1mL - 1.1mL Filling Capacity (2mL Optional)
- +/-0.02mL Filling Accuracy
- Temperature Control from 30c - 80c
- 120v 10A Operation (220v 5A Optional)
- Requires 1CFM @ 90PSI Clean and Dry Air
- 40" Width X 30" Depth x 60" Height
