

IMPROVE GROWTH & YIELD ORGANICALLY

AGT-50 bioactive organic acid complex stimulates and improves plant metabolism affecting nutrient absorption, water uptake, and stress responses.

CROPTOBER IS COMING – FINISH STRONG WITH AGT-50

ORGANIC ACID COMPLEX & TRACE MINERAL PRODUCTS

AGT-50 stimulates and improves plant metabolism affecting nutrient absorption, water uptake, and stress responses.

- Plant Advantages
- Determinate cycle crops
- Higher yield, taste, smell, shelf life
- More vigor (plant root, height, leaf size)
- Oil-yielding crops
- Reduced input cost – 10-25% less fertilizer and IPM usage
- Only product with both quantifiable organic and amino acid chelates on the market

CUSTOMER COMMENTS

"It was used as a drench, and it was used at the very end of flower. The results were impressive and really allowed me to push things all the way to the finish on some plants when I thought they wouldn't. I'm going to be purchasing a few gallons very soon. With adding AGT-50 in my arsenal, I am no longer lacking in the fulvic dept."

"I wanted to reach out to give some honest feedback. Firstly, I can say that I have isolated 6 plants for a very fine-tuned trial. I dialed back my nutrient dosages ~15% and added your product. I am amazed and impressed with what I've found. In short, my plants are loving life, I've especially noticed they're responding much better with the type of silica that we use here which is the RAW powder. Your product may save me \$100's if not \$1,000's if I can get things dialed in. I'll be in touch for more AGT-50 soon!"

"Going forward, AGT-50 will always be used. I couldn't be happier with the results . . . Thanks again for all that you do."

AGT-50 HIGHLIGHTS FOR HYDROPHONICS, FOLIAR & SOIL

- Highest fulvic acid content using LAMAR AOAC v. 97 – 15-30x concentration compared to market leader
- Reduce fertilizer/IPM input costs
- OMRI organic compliance, natural source, natural extraction
- Lowest cost per final feed gallon
- Increased nutrient density (mineral and brix content)

The ultimate plant growth enhancement that infuses your feed water with trace minerals plus organic and amino acids that aren't commonly found in nutrient products.

AGT-50 is a bioactive organic acid complex for both soil and soilless growing. [Contact us](#) for more information or to try a sample.
