

AROMATIC & SILOXANE SOLUTIONS

FROM DOW AND CHEMPOINT

DOWTHERM

7 grades of fluids
Industrial heating and cooling

Thermal Stability: up to 750 °F

SYLTHERM

3 grades
Long life
Silicone Thermal Oil

Thermal Stability: -150 °F
to 750 °F

WHY DOW HIGH TEMPS?

Industry - Chemical Processing

- Fluid Properties to Meet your Needs
- Select from an array of stable and lasting fluids, complimented with decades of operational data.

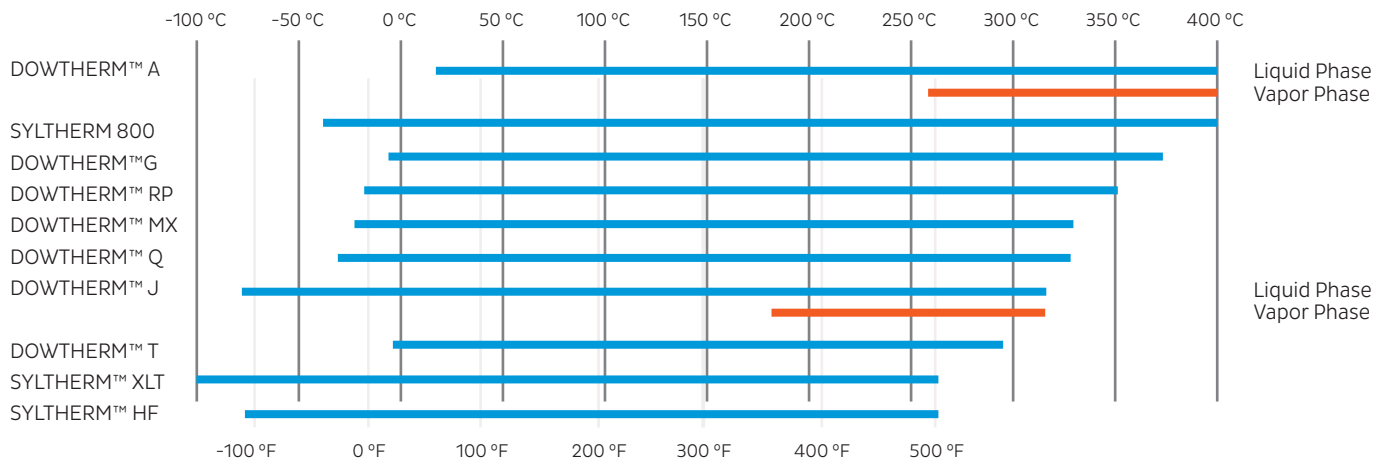

Industry - Oil & Gas

- Meeting and Exceeding Industry Standards
- Dow offers a comprehensive range of solutions that both meet the unique demands of the oil and gas industry and drive optimal system performance.

Value - Comprehensive Analytical Support

- Unrivaled Technical Expertise
- Fast, comprehensive analytical service is available with all DOWTHERM™ products, along with detailed fluid maintenance recommendations.

DOWTHERM & SYLTHERM COMMON APPLICATIONS

- Refineries
- Pharma
- Gas processing
- Ebullient cooling
- LNG liquefaction
- Energy recovery
- Drying & heating of bulk materials
- Single fluid process heating and cooling
