PROFESSIONAL EXPERIENCE

THE GREEN SOLUTION & NECTARBEE | DENVER, CO Lead Co2 Extraction Technician | May 2017-Present

Responsible for leading and developing a carbon dioxide extraction department that generates over \$21M in annual revenue. Experienced in setting up, operating, and maintaining various laboratory refining equipment such as rotary evaporation units, vacuum ovens, pumps, and chillers.

Key Responsibilities

- Train employees on operation and safe handling of equipment in a 22,000 square foot facility
- Involved in co2 extraction, fractional distillation (Short Path and Root Sciences VTA), steam distillation, ethanol extraction, hydrocarbon extraction, and various types of water/solventless extraction
- Prepare cannabis and associated paperwork/data logging for production
- Refine cannabis products including winterization, rotovapping, refining waxes, shatters, edible oils, and cartridge oils
- Perform maintenance on machines and accessory equipment when necessary
- Communicate with vendors on parts and equipment

Key Accomplishments

- Logged over 1,500+ hours operating Eden FX2 20L 5k and Waters SFE BBE p-200 carbon dioxide closed loop extractors
- Skilled in operating a Thompson Duke automated cartridge filling machine with an estimated 900,000 cartridges personally filled
- Collaborated on new product development including isolated terpenes, HTFSE, shatter, and unwinterized raw cartridges
- Implemented efficiency gains such as reducing co2 gas usage, cutting extraction time in half, and encouraging in-house equipment repairs—all efforts to save money and valuable time

EARLY CAREER

Chef at AJ's Pizza Bar & Grill | 2012-2017

Landscaping Specialist | 2010-2012
