Experience

OPERATIONS MANAGER | LEFTIES, LLC | AUGUST 2020 – JULY 2022 | SEATTLE, WA

- Demonstrated exceptional leadership in overseeing the daily operations, resource allocation, and performance of the facility, while ensuring strict adherence to industry regulations and exploring new technologies & methods to enhance efficiency and product quality.
- Achieved a 12% reduction in cost of goods through the implementation of process efficiencies, negotiating with cost-effective suppliers, and implementing waste reduction strategies such as recycling raw materials and inventory management of inbound and outbound products.
- Increased revenue by 25% in the first fiscal year by analyzing product lifecycle and operations, expanding product offerings, and improving sales and marketing through partnerships and maintaining strong relationships with key clients.
- Presented to executive leadership on a weekly basis regarding operations, product quality & revenue.

CHEMICAL PROCESS MANAGER | BLUE ROOTS, LLC | MARCH 2019 – MAY 2020 | SPOKANE, WA

- Demonstrated strong leadership in the management, scheduling and maintenance of laboratory equipment while ensuring compliance with industry standards.
- Implemented effective training and quality control measures to develop and manage laboratory personnel.
- Demonstrated high level of expertise in the operation and maintenance of a variety of advanced laboratory equipment and systems.
- Exhibited in-depth knowledge and skill in the handling and management of a wide range of solvents and chemicals.

SHIFT LEAD OPERATOR | LOST CREEK VENTURES | MARCH 2016 – FEBRUARY 2019 | BOULDER, CO

- Assumed full responsibility for operation and maintenance of the facility in upper management's absence.
- Demonstrated versatility in applying a range of advanced procedures to efficiently transform raw materials into finished products.
- Implemented strict maintenance protocols for laboratory equipment, ensuring compliance with industry standards.
- Provided support and guidance to direct reports in laboratory operations and packaging as needed.
