

Kifcure

WE'RE A TOTAL HEMP SOLUTIONS COMPANY

We have big ideas about the future of hemp, and the future is now!

Our all-star team of cannabis cultivation, extraction & infusion experts are working non-stop to bring every aspect of the hemp supply chain closer together.

We have a commitment to make high quality finished products, consumers and businesses can always rely on.

TOLL PROCESSING

From the time the crop is harvested all the way through refinement and post processing, Kifcure seeks to optimize quality and efficiency using industry-leading best practices.

These processes include, but are not limited to, drying, milling, extraction, distillation, and isomer technologies.

We offer a wide range of services within the processing gambit, such as drying/harvesting solutions, toll-processing of biomass into crude, distillate, or isolate, and everything in between.

Reach out to us anytime with a question or custom solution you may need. We are always here to help!
