About Us

O2VAPE® is a USA veteran and woman owned company that has been producing high quality vaping products since 2013. We proudly supply the finest cartridges, batteries, and all-in-ones on the market. Now, with over 2,000 factories manufacturing vape hardware, it is more important than ever that you choose a reliable supplier you can trust. O2VAPE® has a proven track record and partners with many of the industry's largest brands.

O2VAPE® Safety & Compliance Testing

O2VAPE® maintains a tightly controlled supply chain that ensures our vape cartridges, batteries, and all-in-ones pass the strictest market testing standards. That means our clients can trust the safety of their products when reselling through legitimate distributors and know that they can confidently pass all regulatory tests. In an effort for full transparency, we have listed certifications for our factories and products. Also, we publish our 3rd party heavy metal test results.

Read on, see our tests and learn how you can ensure you are getting the safest vape products for your customers.

MET-05: HEAVY METALS ANALYSIS BY ICP-MS

ANALYTE	REPORTING LIMIT	LIMIT	RESULTS	STATUS
	PPM	PPM	PPM	PASS
