

## Opportunity - Lab technician

07/16/2020

Tennessee Harvester, the top cannabis refinery in the Southeast has an immediate opening for a passionate and professional Laboratory Technician. We are a fully licensed hemp remediation facility in Nashville, Tennessee that prides itself on providing the best in class service while offering superior hemp-derived health products.

### **The Role:**

The ideal candidate will successfully accomplish a wide variety of production, fulfillment, packaging, and laboratory functions. This individual must be able to multi-task, work quickly and efficiently, and be adaptable to changing priorities and tasks as needed. We have a very fast-paced environment as we continue to grow and expand. Must be motivated, trustworthy, and a team player.

### **Job Description:**

Working closely with the Chief Science Officer and the post-processing team to carry out laboratory production; intake raw material; enter and track material quantities in the CRM system; create batch records; maintaining logs and record books; maintaining glassware; daily lab cleanup; troubleshooting and resolving problems.

- Assist Lab Manager in all aspects of CBD post-processing.
- Perform duties necessary for continuous cannabinoid processing.
- Troubleshoot down equipment and perform equipment maintenance.
- Maintain an organized and clean laboratory environment.
- Follow Standard Operating Procedures (SOPs) to produce high-quality active ingredients.
- Understand and follow all safety protocols.
- Monitor system operations and perform tests as required.
- Record data for all procedures using computer systems and hard copy logs, whichever is appropriate.
- Maintain inventory records of supplies, materials, and equipment, and prepare requisitions as needed.
- Storing supplies and equipment, disposal of waste according to guidelines, and keeping laboratory, storerooms, and working areas immaculate.

### **Skill Requirements:**

- Familiarity with basic scientific principles and production terminology.
- Read and follow manuals for Standard Operating Procedures (SOPs).
- Good basic math skills.

- Understanding and adhering to applicable federal, state, and local laws and regulations as they pertain to the cannabis industry, safety regulations, local municipal codes, and organizational rules, regulations, directives and standard operating procedures.
- Ability to establish and maintain effective working relationships with all employees.
- High attention to detail and organized.
- Excellent written and verbal communication skills.
- Demonstrate responsibility, accountability, and dependability toward assigned tasks and duties
- Impeccable integrity, strong ethics, and sound professional judgment.
- Must successfully pass a thorough background check.

### **Education / Experience**

- High School diploma or GED required. Bachelor's preferred.
- Preferred- Degree in Chemistry, Biochemistry, Analytical Chemistry, or related Chemistry field experience.
- Prior GMP production experience preferred.
- Previous experience in cannabis is **not required**.
- Minimum of 2 years of experience in a comparable manufacturing environment.
- Knowledge of manufacturing techniques, equipment operation, and maintenance.
- Ability to understand and follow Food Safety Standards -- FSMA and SQF and State regulations
- Proficient math and computer skills, including MS Word and Excel
- Ability to operate various types of equipment and machinery
- Experience or knowledge of analytical chemistry methods and sample preparation, and/or HPLC is desirable.
- Ability to lift up to 60 lbs. repeatedly and up to 100 lbs. on occasion

### **Company Description**

Tennessee Harvester is a fully licensed hemp remediation facility located in Nashville, Tennessee. We pride ourselves in providing our community in the Southeast with best in class services and offering the finest hemp-derived health products.

Our principles are in providing the guidance, resources, and support our partners need to successfully maneuver throughout the burgeoning hemp industry. Featuring consulting, processing, strategic forecasting, and analytical laboratory testing services, we provide the solutions organizations need to adapt and scale in this evolving marketplace. We focus on helping our partners navigate the adventure ahead. Through our supply chain, we provide our partners with the highest quality materials, post-processing services, and private/white label consumer packaged goods.

Our model is simple – we create partnerships that add value to our clients. Every day we deliver innovative, safe, and consistent products to our clients. It is this opportunity that drives us as we focus on our 3 core values – Integrity, Quality, & Transparency. We win when all 3 values are in focus. If striving to be the best version of yourself by driving your projects and tasks each day with these 3 values at your core you are on your way to be part of the TNHV family.

**Compensation – DOE**

\*Candidate must be over 21 years of age.
